

Be a part of CD research.

Learn about the ICONIC-CD research study of an oral investigational medication for adults with **moderately to severely active Crohn's disease (CD).**

To participate in this study, you must:

- Be 18 years of age or older
- Be diagnosed with CD for at least 3 months
- Have moderately to severely active CD upon entry
- Have not been able to tolerate or have not responded to current or previous treatment for your CD

Additional study criteria will apply. All visits, tests, and investigational medication that are required for the study will be provided at no cost to you. In addition, you may be reimbursed for study-required travel.

The safety and efficacy of the investigational medication have not been established.
